

COMPACT DISC RECORDINGS BY PETER NOTHNAGLE
current list as of February 24, 2010
291 titles
sorted by artist

Notes: YEAR is the year the recording was made -- it may have been published in a later year. ARTIST/
INSTRUMENT refers to the principal performer or ensemble on the recording -- the names of ensemble direc-
tors, accompanists, and others are omitted due to the abbreviated nature of this list. CODE indicates Mr.
Nothnagle's contribution to the recording: P = producer, R = recording engineer, E = editor (or remaster
from analog source). In some cases he collaborated with another person or worked on only a portion of a
recording.

In addition to the published titles listed here, at present 21 master recordings have been finished, but
either the CDs have not yet been published, or for some reason a copy of the commercial disc is not in
hand.
